

EMCO Building Products Offers Maintenance-Free Soffit, Fascia and Rain Carrying Systems That Are Built To Last!

Protect those hard to reach, difficult to maintain areas of your home, like overhangs and porch ceilings, with EMCO Building Products soffit, fascia and rainware systems. In just a few years these areas can peel, blister and rot, damaging your home's appearance and efficiency.

The benefits of EMCO Building Products soffit, fascia and rain carrying system will reward you by:

- Preserving landscaping and preventing basement flooding.
- Eliminating time-consuming and costly painting of those hard-to-reach places.
- Controlling water runoff.
- Providing proper ventilation.
- Reducing expensive annual maintenance costs.
- Controlling moisture and rotting problems inherent in eaves and overhangs.
- Adding beauty and longevity.
- Increasing the value of your property.

EMCO Building Products soffit, fascia and rain carrying systems are manufactured to close tolerances on state-of-the-art equipment. Our Master Alloy™ metal and our advanced paint process give you double protection that will last years longer than most conventional products. Our painted coatings are specifically formulated to withstand years of exposure to weathering, the abrasive characteristics of harsh northern winters, and the damaging effects of the hot summer sun.

EMCO Building Products designed its soffit, fascia and rain carrying systems to work as a complete protection and beautification system. The result is an energy efficient, maintenance-free alternative to traditional materials which require continual repainting and eventual replacement.

EMCO Building Products takes pride in providing our customers with the best products. Our steel fascia is just one example of our dedication to manufacturing quality products.
